ExamN+ Browser on iPad

The functionality mentioned in this manual may differ from the functionality available to you. There may need to be custom development to implement this functionality.

- I. Guided Access
- II. Downloading the examN+ Browser
- III. Registration Code (Offline)

Guided Access

Welcome to examN+ Testing. This document will explain how to install the ExamN Lockdown Browser onto your iPad.

In order for the examN+ Lockdown Browser to function properly, you will first need to turn on **Guided Access**.

- 1. Tap the **Settings** app on your iPad.
- 2. Tap on **Accessibility**.
- 3. Find the **Guided Access** item under the **Accessbility Menu**, below the **General** Category

12:56 PM Tue Sep 7		🗢 🕇 100% 🗖

- 4. Toggle Guided Access **On**.
- 5. Tap on **Set Passcode** and choose a four or six-digit passcode that you can remember.

6. Toggle **Accessibility Shortcut** to **On** so that you can triple-tap the Home button to enter Guided Access mode (for devices that have a Home Button).

Downloading the examN+ Browser

1. Tap the **App Store** app on your iPad.

2. Search for examN+ Browser.

3. Download and open the **examN+ Browser**.

Registration Code (Offline)

The first time you run the browser, you will be asked to enter a Registration Code. Your registration code is: **EXAMNPLUS**
